

BACKPACKS

THE SALEWA CARRYING SYSTEMS

Fit is the most important feature of a backpack.

Backpacks are somewhat like full suspension systems. They must react to every move you make.

Contact-Fit

Less pack movement thanks to the way it sits closer on your back.

Air-Fit

Superior ventilation due to improved airflow between user and backpack.

Custom-Fit

Distribute your load more evenly thanks to a highly customisable carrying system.

Easy-Fit

Comfortable fit due to smart use of padding.

Simon Oetli (alpinist)

MOUNTAINEERING

CONTACT-FIT CARRYING SYSTEM

Anatomically shaped back padding
Creates optimal contact between pack and user, ensuring an evenly distributed load. Perfect fit makes it well suited for Alpine use

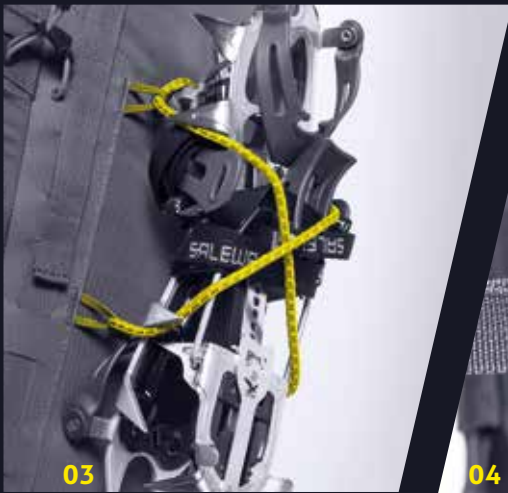

Load control straps
Ensure optimal back fit

Padded shoulder straps and comfortable back padding
Increase comfort even on lengthy tours

Ergonomic back panel
An ISB board serves to stabilize the back and can be removed if needed to cut additional weight

Removable hipbelt
Ensures the best possible comfort when wearing a climbing harness

KEY FEATURES

01 | MATERIAL LOOP ON HIP BELT
Have everything organized and within reach in any situation

02 | REMOVEABLE HIP FIN
Eliminates weight in a few steps, or helps to prepare the backpack for a climb

03 | TIE ON POINTS FOR MULTIPLE USE
Eliminates weight in a few steps, or helps to prepare the backpack for a climb

04 | ALARM WHISTLE
Good for emergencies, or to simply draw attention to yourself

05 | ICE-PICK/ POLE FASTENING
Fixed in place, the icepick is safely stored away and can be retrieved just as quickly

HIKING

AIR-FIT CARRYING SYSTEM

Air-Fit Mesh Carrying System

The combination of mesh in the back area and a lighter, forgiving carbon steel frame guarantees outstanding ventilation. The ventilation space between the pack and the suspension system, as well as the ventilation openings, ensure perfect comfort.

Load lifter straps

Ensure optimal back fit

Padded Shoulder straps

With highly breathable mesh on the underside foster comfort even on lengthy tours

Mesh pads in the low back

Optimize the load distribution and thus increase comfort

KEY FEATURES

01

02

03

04

05

01 | POLE FASTENING

Convenient and secure storage and safe transport for skis and hiking poles

04 | SEPARATE FRONT COMPARTMENT

For direct access to anything that's important - cards, granola bars or cell phone

02 | HIP BELT POCKET

Valuables such as money, camera and mobile are well taken care of here

05 | RAINCOVER

Provides backpack with reliable protection against rain and mud

03 | SIDE POCKETS

Highly versatile and flexible storage space for water bottle, thermos and anything else you want at your fingertips
