VAYU HELMET

HEAD OUT SAFELY

Light, comfortable and built to resist – the Vayu Helmet sets new standards in head protection. The helmet's unique lightshell construction and innovative lightweight materials minimize weight and retain excellent impact resistance capabilities. A tough polymer outer-shell and multi-impact inner shell ensure robustness, while large openings provide optimal ventilation and compliment the Vayu's sleek design.

STRENGTH
IN LIGHT

SIGNATURE PRODUCT

HELMET TECHNOLOGIES

The perfect helmet is essential for outstanding performance in mountain sports: it must offer reliable protection, both from rockfall & impacts during a fall; remaining light enough to feel "barely there" and allow for maximum airflow to keep a cool head.

All SALEWA helmets have the pretension to be best-in-class due to our innovative technical solutions and use of high-performance materials.

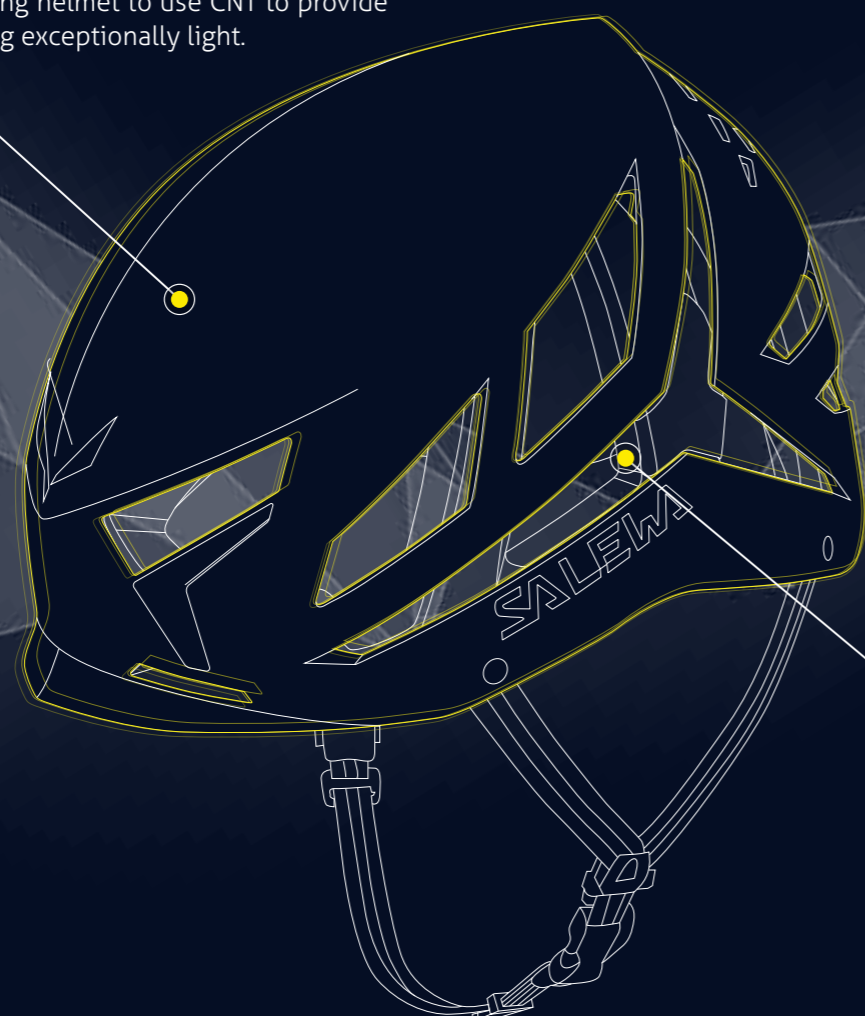

ULTRALIGHTWEIGHT PROTECTION

CARBON NANO TEC comprises carbon nanotube-polymer composite which offers an extraordinary strength-to-weight ratio. The use of CNT in the outer shell of the VAJU helmet makes it possible to reduce the wall thickness and therefore the weight of the helmet to a minimum without compromising protection. The VAJU is the first ever climbing helmet to use CNT to provide maximum safety while remaining exceptionally light.

MULTI-IMPACT RESISTANCE

For shock absorption most helmets use EPS (expanded polystyrene), a material that will be permanently compressed when absorbing an impact. The shock-absorbing elements of the inner shell of the VAJU and VEGA helmets are made from EPP (expanded polypropylene) which is a high performance plastic foam material with outstanding energy absorption. EPP protects from multiple impacts without damage.

SUPREME VENTILATION

Due to the exceptional stiffness of the CNT used in the outer shell of the VAJU the design of the helmet could be stretched to the limits, opening massive vents that allow for maximum airflow without sacrificing protection.

2296 VAYU

NEW

RRP: WHP: NOTES:

Setting new standards, the best ever SALEWA helmet is ultra-light and boasts uncompromising ventilation, safety and style.

FEATURES:

- The high-strength CNT-Shell (Carbon Nano Technology) provides maximum protection and durability at minimum weight (180g)
- Inner-shell elements made of expanded polypropylene (EPP) give resistance to multiple impacts
- Generous vents provide excellent ventilation
- Minimalist adjustment system makes for easy adaptation to any head shape
- Integrated headlamp clips
- Easy to clean, removable and washable padding

WEIGHT: 180 g (S/M)
SIZE: S/M (53 - 59 cm) - L/XL (59 - 63 cm)

NEW

RRP: WHP: NOTES:

Light and versatile helmet for climbing and mountaineering.

FEATURES:

- Tough outer shell made of high strength plastic offers efficient protection against impact at low weight
- Inner-shell elements made of expanded polypropylene (EPP) give resistance to multiple impacts
- Great fit and light weight makes for maximum wearability and comfort
- Ensures excellent ventilation through numerous vents and reduced padding
- Even with gloves, the adjustment wheel allows for quick and easy adaptation of the helmet
- Integrated headlamp clips
- Easy to clean, removable and washable padding

WEIGHT: 200 g (S/M)

RRP: WHP: NOTES:

Upwards as well as downwards - the extremely versatile Climb-to-ski helmet is the ideal compromise between the classic climbing helmet and the more fashion-conscious ski one, without foregoing safety, in any way.

FEATURES:

- Double certification (skiing and climbing).
- A streamlined shape protects the temples and the back of the head.
- lightweight.
- Optimal ventilation thanks to big slots and air vents on the inside.
- Removable and washable Tech Padding keeps humidity at bay and guarantees enhanced comfort.
- Removable ear protections made of Tech Padding guarantee optimal ventilation and reduced volume.
- Magnetic fitlock buckle, easily operable with one hand/ with gloves on.
- Full integration and ventilation for ski glasses (goggles).
- Adjustment wheel for perfect fit.

02

03

90SafX

01 | 90SAFX BUCKLE

The Salewa 90SafX buckle (pat. pending) meets the highest safety standards: up to an angle of 90° the buckle is completely locked, without any slippage. Once beyond 90° the buckle can be released with minimal effort thanks to our Easy-Slide-Technology. This prevents accidental loosening of the buckle while retaining ease of use. The light version is a combination of aluminum and stainless steel maximising strength to weight ratio. The basic version is made completely from stainless steel.

EvoBelt

02 | EVOBELT

The Salewa Evobelt maintains perfect symmetry on the sit harness: using a hybrid construction combines the flexibility of a floating waist belt with the advantage of a conventional sewn construction (fixed padding position). That means that the Evobelt is adjustable to any waist size allowing the gear loops to always remain on the sides within ergonomic, contortion-free reach. Once the correct position has been set slippage will not occur.

Vario Webbing

03 | VARIO WEBBING

The rock line harnesses use a special variable width webbing. This allows for the thinnest possible width where buckles are attached in order to save weight. In areas of high pressure the webbing is wide in order to absorb the resulting forces and distribute them evenly over the entire surface. Thus, our harnesses retain unmatched comfort.

807 ROCK M

RRP: WHP: NOTES:

High quality, reliable all-around harness with full adjustability and uncompromising comfort for all alpine activities throughout the year.

PRODUCT FEATURES:

- Optimal symmetry thanks to Evo belt padding
- Balanced pressure distribution thanks to Vario Webbing
- Excellent breathability thanks to 3D Vapor Mesh
- Adjustable leg loops
- Three 90SafX buckles in light version (pat. pending)
- Four gear loops: two molded 3D loops in the front, two softer rear loops for comfortable carrying of backpack
- Two loops for carry tool
- Two accessory loops, e.g., for chalk bag attachment
- Integrated wear indicator increases safety

WEIGHT: 430 g (M/L)
CERTIFICATIONS: EN 12277 Type C

958 ERGO ZIP

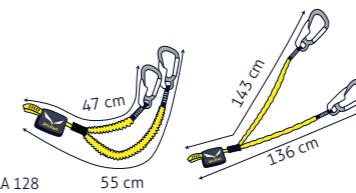

RRP: WHP: NOTES:

A via ferrata set with Ergotec 2.0 carabiners in new design plus shock absorbers and integrated Zip Roller.

PRODUCT FEATURES:

- Extreme safety with unsurpassed handling comfort
- Ergotec carabiner fits the hand perfectly, even kids' hands
- Save 30% more energy with an ergonomic hand fit
- Extra-wide opening enables fast and secure clipping in and out
- Flattened shape can flex under loads without breaking
- Zip System enables close-to-the-body handling, thus eliminating the risk of trips
- Equipped with tear webbing energy absorber
- Rest loop on the energy absorber
- Suitable for 50 - 120 kg

WEIGHT: 610 g

ERGO BELAY SYSTEM SMOOTH BELAYING

The Ergo Belay System puts an end to those octopus arm movements while belaying. Thanks to its unique ergonomic design and grip, the braking hand never has to leave the rope, meaning better efficiency, smoother handling and a safer experience.

salewa.com

FULL
CONTROL

Developed by Chris Semmel,
branch manager for the mountain and
skiing guide association.

1720 ERGO BELAY SYSTEM

RRP: WHP: NOTES:

Lightweight ergonomic belay device with blocking function - for climbing outdoors and indoors.

FEATURES:

- Responsive blocking function, with ease of release
- Ergonomic and intuitive handling, design accommodates risk of user error
- Ideal for lead belaying: faster rope feeding, quick and smooth transition between locked and unlocked state
- Easily controlled lowering action
- Maximum safety, design ensures braking hand remains on the rope at all times

ROPE DIAMETER: 8,6 - 11 mm
MATERIALS DESCRIPTION: Alu 7075 T6
WEIGHT: 170 g
CERTIFICATIONS: EN 15151, UIAA 129

3990 NIGHT

1484 ALPINE TUBER

RRP: WHP: NOTES:

Lightweight alpine belay and rappel device.

FEATURES:

- Function for both belaying and rappelling
- For ropes with a diameter of 7.7 to 11mm
- Friction-free handling due to large rope guiding slots
- Suitable for up to 2 followers on belay
- Deep braking grooves for easy release
- Safety markings on both sides for left and right-handers

WEIGHT: 84 g
SIZE: 7,7 - 11 mm

0335 SKY BLUE

1485 MONO TUBER

RRP: WHP: NOTES:

Lightweight safety device designed according to the tube principle for use with single ropes.

PRODUCT FEATURES:

- Designed for securing with single rope
- For ropes with diameters 7,7 mm - 11 mm
- Deep braking grooves for easy release
- Friction-free handling due to large rope guiding slots
- Safety markings on both sides for left and right-handers

WEIGHT: 47 g
SIZE: 7,7 - 11 mm

0335 SKY BLUE

1634 FIGURE 8 MEDIUM G2

RRP: WHP: NOTES:

Figure 8 for rappelling and belaying.

0985 TITAN

BREAKING LOADS LONGITUDINAL: 30 kN

1637 ROPE PULLEY G2

RRP: WHP: NOTES:

First-class rope pulley for Z-pulley systems, cable pulleys and similar applications.

PRODUCT FEATURES:

- Suitable for ropes between 8 and 12 mm in diameter
- Compact and lightweight construction

WEIGHT: 80 g
SIZE: for 8-12 mm ropes

0535 LIME GREEN

1475 SKYRIDE ROPE ASCENDER

RRP: WHP: NOTES:

Sturdy rope ascender that also enables fast, effortless descending thanks to its patented Rapid-Release System.

PRODUCT FEATURES:

- Rapid-Release-System for fast and simple engaging and disengaging
- Available in both right- and left-handed versions

WEIGHT: 215 g
SIZE: for 8-13 mm ropes

0535 LIME GREEN

0414 SOFTY 90 MM
0415 SOFTY 70 MM **0416 SOFTY 50 MM**

Piton made of zinc-plated steel with a rounded tip.

PRODUCT FEATURES:
 - Available in three lengths

	0414	0415	0416
WEIGHT:	110 g	90 g	80 g
LENGTH:	90 mm	75 mm	50 mm

RRP: WHP: NOTES:

0530 LIMEGREEN

0408 ANGLE PITON 115 MM
0409 ANGLE PITON 70 MM

Wedge-shaped piton of tempered steel and a high bias that secures firmly in rock.

PRODUCT FEATURES:
 - Available in two lengths

	0408	0409
WEIGHT:	110 g	55 g
LENGTH:	115 mm	70 mm

RRP: WHP: NOTES:

0900 BLACK

0412 BLADE PITON 70 MM
0413 BLADE PITON 55 MM

Classic piton of tempered steel for narrow cracks and crevices.

640 MASTER CORD 6MM PRECUT

Pre-cut, high-strength rope for the knotting of slings and for use during alpine climbing and technical mountain climbing.

FEATURES:

- Available in 4 lengths
- Light and high-strength (>15 kN)
- High UV resistance
- Areas of application: stand construction, intermediate fixing point, extended stand construction, belaying, prusik, pulley, threading

WIDTH:	6 mm	WEIGHT:	30	60	120	240
MAXIMUM LOAD:	15 kN	LENGTH:	26 g	41 g	70 g	130 g
CERTIFICATIONS:	EN 564		30 cm	60 cm	120 cm	240 cm

603 ALPINO LOOP

Extra-long loop for challenging alpine climbing.

FEATURES:

- High abrasion resistance and edge strength
- High breaking load
- Areas of application: stand construction, intermediate fixing point, belaying

WIDTH:	8 mm	WEIGHT (PIECE):	60	120
MAXIMUM LOAD:	26 kN	LENGTH:	35 g	70 g
CERTIFICATIONS:	EN 566		60 cm	120 cm

0999 GREEN/BLUE

647 DYNEEMA SLING

Light webbing sling for use when climbing.

FEATURES:

- Light
- Low volume
- Areas of application: stand construction, intermediate fixing point, belaying

WIDTH:	10 mm	WEIGHT:	30	60	120
MAXIMUM LOAD:	23 kN	LENGTH:	15 g	22 g	35 g
CERTIFICATIONS:	CE EN 566		30 cm	60 cm	120 cm

639 MASTER CORD SPOOL

High-strength rope on coil.

FEATURES:

- Light and high-strength (>15 kN)
- High UV resistance
- Areas of application: stand construction, intermediate fixing point, extended stand construction, belaying, prusik, pulley, threading

WIDTH:	6 mm
MAXIMUM LOAD:	15 kN
WEIGHT:	30g/m
LENGTH:	60 m, 200 m
CERTIFICATIONS:	EN 564

5315 GREEN

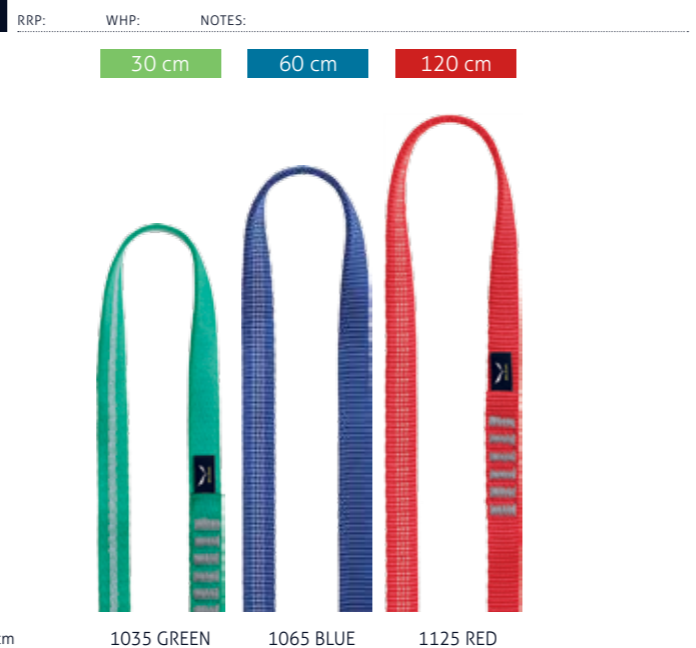

648 NYLON SLING

Durable webbing sling for quality-conscious beginners.

FEATURES:

- Areas of application: stand construction, intermediate fixing point, belaying

1742 NORTH-X 1741 NORTH-X HAMMER

RRP: WHP: NOTES:

A versatile ice axe which masters all activities related to technical mountaineering, without compromises: Approach, Climbing in steep mixed or ice terrain, building an anchor, crossing glaciers.

FEATURES:

- The precision casted head is carried comfortably as a mean of support.
- Its aggressive blade sits securely in every type of ice and rock.
- A balanced weight distribution and a 20°deg; offset shaft guarantee an optimal swing and allow for efficient belay mounting.
- Single handed, the grip can be adjusted without any supporting tool and guarantees a perfect hold on steep terrain.
- The anchor leash on the shaft, with tearing support of 5kN, is perfect for the self belay on the anchor.
- The grip can move upwards in snow and does not prevent the setting up of an anchor and its function as a supporting tool.
- The synthetic grip protects from the cold.
- The replaceable hard metal tip won't slip even on icy surfaces
- Available with adze and hammer.

WEIGHT: 540 g
LENGTH: 52.5 cm
MATERIALS DESCRIPTION: Steel head and blade, 7075 aluminium shaft, steel spike
CERTIFICATIONS: EN 13089, Shaft ①, Blade ②

1715 QUICK SCREW

RRP: WHP: NOTES:

Tested and approved by SALEWA athletes. The „quick screw“ for ice climbing is so easy to handle thanks to its ergonomically designed head and comes with a fixed screw cap, easily removed with one hand. This innovative ice screw sets new standards in terms of handling and performance.

PRODUCT FEATURES:

- Ergonomic head means easy handling and efficient placing of the ice screw
- Winder with large handle for fast and effortless tightening
- Ideal screw placing thanks to compact head and direct attachment of harness loop to screw shaft
- Compact construction avoids overloaded climbing harness
- Colour coding for easy length differentiation
- Integrated screw tip protector (patent registration in progress) won't get lost, prevents injury and damage to clothing
- Screw tip protector fixes screw in place until used, easily removed with one hand
- During removal from the ice, screw can remain clipped to rope and won't get lost
- Three lengths available

2620 RAZOR

RRP: WHP: NOTES:

Makes no compromises when it comes to safety - this large, sturdy avalanche shovel is a potential lifesaver.

PRODUCT FEATURES:

- Shovel made of high-strength, tempered aluminium
- Extra-sharp blade edge – cuts through the toughest avalanche snow
- Shovel blade with parallel edges prevents snow compressing further thus reducing effort required
- Horizontal tread zone saves footwork effort and stops foot slipping when shovelling
- Ergonomic Progrip telescopic shaft for perfect handling
- Robust plastic D-grip practical to hold and doesn't break

WEIGHT: 720 g
 SHAFTLENGTH: 90 cm (max)
 PACKING SIZE: 47 x 23 cm
 SHOVEL BLADE: 23 x 31 cm
 MATERIAL: Alu 6061 T6

8465 POLAR BLUE
